MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determination of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

CANCELLATION OF GENERAL WAGE DETERMINATION DECISIONS

General Wage Determination Decision No. IA76–4053, Carroll, Clay, Crawford, O'Brien, and Osceola Counties, Iowa, has been withdrawn. A new decision No. IA77–4110 is published in this FEDERAL REGISTER for an area which includes the counties of Carroll and Crawford. Agencies with heavy or highway construction projects pending in Clay, O'Brien, or Osceola Counties should utilize the project determination procedure by submitting Form SF–308. See Regulations Part 1 (29 CFR), § 1.5. Contracts for which bids have been opened shall not be affected by this notice, and consistent with 29 CFR 1.7(b)(2), the incorporation of Decision No. IA76–4053 in contract specifications, the opening of bids for which is within ten (10) days of this notice need not be affected.

Signed at Washington, D.C., this 3rd day of June 1977.

RAY J. DOLAN,
Assistant Administrator,
Wage and Hour Division.

POWER EQUIPMENT OPERATORS ZONE 1

GROUP I - Asphalt paver and spreader; asphalt plant console operator; auto grader; back hoe; blade operator, all types; boilers-2; booster pump on dredge; boring machine (truck or crane mounted); bulldozer operator; clamshell operator; compressor maintenance operator-2; concrete plant operator, central mix; concrete mixer paver; crane operator; derrick or derrick trucks; ditching machine; dragline operator; dredge engineman; dredge operator; drillcat with compressor mounted on cat; drilling or boring machine, rotary, self-propelled; highloader-fork lift; hoisting engine-2 active drums; locomotive operator, standard gauge; mechanics and welders, field or shop; maintenance operator; mucking machine; piledriver operator; pitman crane operator; pump-2; quad-trac; scoop operator-all types; scoops in tandem; self-propelled rotary drill (Leroy or Equal-not Ait Trac); shovel operator; side discharge spreader; side boom cats; skimmer scoop operator; slip-form paver (CMI, REX, OR Equal); throttle man; truck crane; welding machine maintenance operator-2

GROUP II - "A" frame truck; asphalt hot mix silo; asphalt plant fireman; drum or boiler; asphalt plant mixer operator; asphalt plant man; asphalt roller operator; backfiller operator; chip spreader; concrete batch plant, dry, power operated; concrete mixer operator, skip loader; concrete pump operator; crusher operator; elevating grader operator; greaser; hoisting engine-1 drum; Latourneau rooter; multiple compactor; pavement breaker, self-propelled, of the hydra-hammer or similar type; power shield; pug mill operator; stump cutting machine; towboat operator; tractor operator-over 50 h.p.

GROUP III - Boilers - 1; chip spreader (front man); churn drill operator; compressor maintenance operator - 1; concrete saws, self-propelled; conveyor operator; distributor operator; finishing machine operator; fireman, rig; float operator; form grader operator; pump; pump maintenance operator, other than dredge; roller operator, other than high type asphalt; screening and washing plant operator; self-propelled street broom or sweeper; siphons and jets; sub-grading machine operator; tank car heater operator-combination boiler and booster; tractor, 50 hp or less, without attachments; vibrating machine operator, not hand; welding machine maintanance operator - 1

GROUP IV - Mechanic's helper, oiler

GROUP V - Clamshells, 3 yd. capacity or over, crane or rigs 80 ft. of boom or over (including jib); draglines, 3 yd. capacity or over; pile drivers, 80 ft. of boom or over (including jib); shovels, 3 yd. capacity or over

GROUP VI - Crane or rigs, over 200 ft. of boom (including jib)

GROUP VII - Hoist (each additional drum over 1 drum)

GROUP VIII - Oiler driver, all types

Men working in tunnels or shafts (not air shafts or coffer dams) of twenty-five (25) ft. or more in lenght or depth will be paid fifty cents (50c) per hour above the regular classification.

POWER EQUIPMENT OPERATORS ZONE 2

GROUP I - Backhoe; cableway; crane, crawler or truck; crane, hydraulic-truck or cruiser mounted - 16 tons & over; crane, locomotive; derrick, steam; derrick car & derrick boat; dragline; dredge; gradeall, crawler or tire mounted; locomotive, gas, steam & other powers; pile driver, land or floating; scoop, skimmer; shovel, power (steam, gas, electric, or other powers), switch boat; whirley

GROUP II - Air tugger 2/air compressor; anchor-placing barge; asphalt spreader; athey force feed loader (self-propelled); backfilling machine; boat operator-push boat or tow boat (job site); boiler, high pressure breaking in period; boom truck, placing or erecting; boring machine footing foundation; bullfloat; cherry picker; combination concrete hoist & mixer such as mixermobile; compressors, two, not more than 20 ft. apart; compressors, not more than five ft. apart; compressor-welder combination; concrete breaker (truck or tractor mounted); concrete pump, such as a pump-crete machine; concrete spreader; conveyor, large (not self-propelled), hoisting or moving brick and concrete into, or into and on floor level, one or both; crane, hydraulic-rough terrain, self-propelled; crane hydraulic-truck or cruiser mounted-under 16 tons; drilling machines, self-powered, used for earth or rock drilling or boiring (wagon drills and any hand drills obtaining power from other sources including concrete breakers jackhammers and barco equipment - no engineer required); elevating grader; engine man, dredge; excavator or powerbelt machine; finishing machine, self-propelled oscillating screed; forklift; grader, road with power blade; highlift; hoist, concrete and brick (brick cages on concrete skips operating in or on tower, towermobile, or similar equipment); hoist, stack; hydro-hammer; lad-a-vator, hoisting brick or concrete; loading machine (such as barber-greene); mechanic, on job site; mixer, paving; mixermobile; mucking machine; pipe cleaning machine; pipe wrapping machine; plant asphalt; plant, concrete producing or ready-mix job site; plant heating-job site; plant mixing-job site; plant, power, generating-job site; pump, self-powered, over 2" (one operator will operate two); pumps, electric submersible, one through three, over 4"; quad-track; roller, asphalt, top or sub-grade; scoop, tractor drawn; spreader box; sub-grader; tie tamper; tractor-crawler, or sheel type with or without power unit, power take-offs, and attachments regardless of size; trenching machine; tunnel boring machine; vibrating machine, automatic, automatic propelled; welding machines (gasoline or diesel) more than one but not over four (regardless of size); well drilling machine

GROUP III - Air tugger w/plant air; boiler, for power or heating on construction projects; boiler, temporary; compressor, air-one; compressor air (mounted on truck); concrete saw, self-propelled; conveyor, large (not self-propelled); conveyor large (not self-propelled moving brick and concrete (distributing) on floor level; curb finishing machine; ditch paving machine; elevator (building construction or alteration); endless chain hoist; fireman; form grader; generator, one over 30 KW or any number developing over 30 KW; greaser; hoist, one drum regardless of size (except brick or concrete); lad-a-vator, other hoisting; manlift; mixer, asphalt, over 8 cu. ft. capacity, mixer, if two or more mixers of one bag capacity or less are used by one employer on job, an operator is required; mixer, with outside loader, 2 bag capacity or more; mixer, with side loader, regardless of size, not paver; oiler on dredge; oiler on truck crane;
